

Aradhanna Reddy

COMPUTER SCIENCE GRADUATE — DATA SCIENCE & CYBERSECURITY

aradhnareddy@gmail.com (210) 381-0036 San Antonio, TX

PROFILE

CS graduate with concentrations in Cybersecurity and Data Science, and a minor in Psychology. Built hands-on projects in machine learning, steganography, NLP, and full-stack web development. Currently completing a Post Graduate AI/ML program at UT Austin McCombs. Targeting roles in data science, AI/ML engineering, or cybersecurity analytics.

PROJECTS

Sentiment Analysis of Movies & TV Shows

Python NLP Machine Learning scikit-learn

- Built a multi-model sentiment analysis system on a team of three, evaluating emotional tone in user reviews of films and TV shows
- Applied NLP preprocessing techniques (tokenization, lemmatization, vectorization) to large datasets
- Trained and evaluated 5 classification models; focused on bias awareness, model validation, and visualization of results

Discrete Wavelet Transform (DWT) QR Steganography Tool

Python OpenCV NumPy PyWavelets Cryptography

- Built a tool to covertly embed and extract QR-encoded data inside images using frequency-domain (DWT) techniques
- Implemented binary file handling, error correction, and extraction robustness using OpenCV, NumPy, PyWavelets, and PIL

Database System for Music Shop Management

SQL Relational Database Design Team Leadership

- Led a team of five to design and implement a relational database supporting inventory, sales, and customer management
- Wrote optimized SQL queries to produce data-driven operational reports for business owners

Web Development & AWS Server Deployment

HTML CSS JavaScript PHP MySQL AWS EC2

- Deployed a personal full-stack web application on a self-configured AWS EC2 instance over 6 months
- Built dynamic content with PHP and MySQL backends; gained hands-on experience with cloud hosting, DNS, and server management

RowdyBall

Java OOP GUI

- Collaborated with a team of four to build a Java GUI application using object-oriented design principles

SKILLS

LANGUAGES

Python Java SQL JavaScript
HTML/CSS C

TOOLS

Git SAP Hana SAP Joule

LIBRARIES & FRAMEWORKS

NumPy OpenCV PyWavelets
Pillow (PIL) NLTK scikit-learn

CONCEPTS

Machine Learning
Natural Language Processing
Cryptography Data Structures
Algorithms Cybersecurity
Web Technologies

CLOUD & INFRASTRUCTURE

AWS EC2 MySQL
PHP backend deployment

EDUCATION & INVOLVEMENT

University of Texas at San Antonio

B.S. in Computer Science — Concentrations:
Cybersecurity, Data Science | Minor:
Psychology · B.S.

2021 - 2025 · San Antonio, TX

University of Texas at Austin, McCombs School of Business

Post Graduate Program in Artificial
Intelligence & Machine Learning: Business
Applications

2026 - present

IN PROGRESS

INVOLVEMENT

Sandwich SEVA

Volunteer

2023 - Present

- Volunteered 70+ hours coordinating sandwich assembly and weekly donation drops (250+ sandwiches/week) to Haven for Hope

Association for Computing Machinery (ACM), UTSA Chapter

Member

2022 - 2025

- Participated in hackathons, tech talks, and fundraising events

Sitaara

Student Liaison

2022 - 2022

- Coordinated logistics for 32 students from Rice University including housing, meals, practice spaces, and scheduling
